

What's New in the Shire of Wongan-Ballidu?

BOWLING GREEN

The new bowling green is almost complete being in its very final stages before sign off! Our gardening team have been busy setting up the reticulation to keep the green in great condition. We can't wait to see the first game played after the long awaited works are completed.

WATER WORKS

Blackwell Plumbing and Gas, working for Water Corporation will be replacing the water main along Wilding Street and a section along Johnston Street commencing this week on Monday 29th May through until 30th June. The pipeline will be installed by digging an open trench, which will be backfilled, compacted and restored. All enquiries, please contact Water Corporation on 13 13 85.

INSTALLATION OF ELECTRIC CHARGING STATIONS

The installation of the new electric vehicle charging stations has commenced with the Shire Administration Works being carried out last week. In coming weeks, the public use charging stations will be installed near the Wongan Hills Visitors Centre. This will allow for two vehicles at a time to charge and will be a great draw card for tourists travelling through the region, as well as putting us on the EV Network Map!
