## MANAGEMENT OF RABBITS IN WONGAN CONSERVATION PARK

The Department of Biodiversity, Conservation and Attractions will be undertaking rabbit control to protect threatened plants in Wongan Conservation Park from Monday 25 March to Sunday 30 June 2024.

The Wongan Triggerplant is listed as Critically Endangered and occurs only in vegetation surrounding Wongan Hills townsite, including Wongan Conservation Park.

Please look out for 1080 bait warning signs and ensure domestic animals do not enter Wongan Conservation Park at any time. Please see next page for map of the area.

There are many dog-friendly walking areas in and around Wongan townsite, such as the Wongan recreation ground and Christmas Rock walk trail.

Thank you for helping us conserve threatened plants in our community.

Image: Wongan Triggerplant (*Stylidium coroniforme* subsp. *coroniforme*) is listed as Critically Endangered and occurs only in vegetation surrounding Wongan Hills townsite, including Wongan Conservation Park. Rabbit control will directly support the recovery of this species and many others following a recent bushfire in the area.

## ARTISTIC SWIMMING AT THE WONGAN HILLS SWIMMING POOL

Artistic Swimming WA visited Wongan Hills on Sunday providing a free artistic swimming lesson at the Wongan Hills Memorial Swimming Pool. Funded by the Department of Local Government, Sport and Cultural Industries 12 participants joined the lesson learning some new skills.
